

Simplifying Vehicle Program Management

Motus solutions help companies optimize spend, mitigate risk, and efficiently design a effective vehicle programs tailored to their specific business objectives and employee needs.

Motus Reimburse

Accurate Compensation for Every Driver

With Motus Reimburse, companies can optimize spend and gain visibility across their vehicle programs. Our powerful platform provides data-backed reimbursement calculations and controls that save drivers and program administrators time. Enjoy peace of mind knowing your drivers are fairly and accurately reimbursed and have tools that let them focus on their jobs, not their mileage.

Benefits:

- Gain visibility and control across all vehicle reimbursement spend
- Stay on task with on-demand reporting capabilities
- Design flexible, optimized programs for each driver group with support from our team
- Mitigate exposure to potentially critical tax and labor law liability
- Customize programs and offer reimbursements that accurately reflect job roles and assets used for business

92% of Customers
achieve ROI in less than
12 months

Motus Protect

Perform Due Diligence & Manage Risk

Motus Protect offers a centralized solution to demonstrate due diligence and mitigate ongoing risk exposure from on-the-job auto accidents. Our automated tools support compliance with licensing and insurance standards, promote safe driving, and mitigate financial and reputational risks for companies. With Motus Protect, you gain visibility into risky driving behaviors and insurance coverage status, aligning costs and risk tolerance by driver group in one streamlined platform.

Benefits:

- Mitigate exposure to liability from employees that drive personal cars for work
- Monitor emerging risks in driver population from unlicensed, high-risk, and under- or uninsured drivers
- Enhance safety by training drivers in core driving skills

With 1 in 7 Drivers being uninsured,
we help employers monitor employees who
drive as part of their job to confirm they are
properly insured, licensed, and trained.
