

Your Comprehensive Partner in Forward and Reverse Logistics Solutions

Are you tired of the complex and time-consuming process of managing mobile devices and accessories throughout their lifecycle? Look no further. Your single-source provider for end-to-end logistics solutions is based in Augusta, GA. With our customizable and scalable approach, we're here to transform your logistics challenges into streamlined efficiency. **Here's how we make a difference:**

Forward Logistics: Empower Your Workforce

Effortless Procurement and Deployment

- Automated fulfillment directly from providers or existing inventory.
- Real-time asset reporting for instant inventory insights.
- Inclusion of start-up guides for swift user adoption.
- Track final disposition of all devices through End-of-Life

Seamless Staging and Kitting

- Incorporation of approved accessories, cases, chargers, and more.
- Custom configuration and updates for company standards.
- Enrolment in Mobile Device Management (MDM) for enhanced security.
- Out-of-the-box readiness to boost end-user productivity.

Swift Shipping & Deployment

- Hassle-free shipping and delivery, whether to our center or directly to users.
- Rapid device deployment and accessories for ready-to-go functionality.
- In-house logistics ensure top-notch customer prioritization.
- White-glove experience for employees, with prompt order processing.

Reverse Logistics: Sustainable Recovery for a Better Future

Efficient Recovery and Repair

- Increase recovery of devices for repair, replacement, resale, or recycling.
- Maximized financial returns on your hardware investments.

Comprehensive Scanning & Wipe

- Battery level checks to ensure device reliability.
- Secure data wiping for corporate protection.
- Reliable physical wipes for better security.

Expert Diagnosis & Reissue

- Thorough diagnosis of issues before redeployment.
- Seamless event tracking and recovery initiation.

Resell, Reissue & Recovery

- Swiftly manage device recoveries, upgrades, and replacements.
- Rapid reissue and resale to mitigate depreciation.
- Significant environmental impact reduction through recycling.
